

Telefónica

O₂

Station 03: The Design

think
big

is a Telefónica Foundation Programm

Station 03:

The Design

Goal: Giving your idea a „face“.

Approach:

Step 01 [20+ min. + open end] – Inspiration

- ☐ Collect ideas on the basic appearance of your app (bullet points).
- ☐ Get inspired (see links).
- ☐ Collect your inspirations (Copy-Paste, s. PSD-template).

Step 02 [20+ min. + open end] – Moodboard

- ☐ Create moodboards from your inspirations.
- ☐ Choose the best elements.

Step 03 [20+ min. + open end] – Sketches

- ☐ Select a key screen to sketch out.
- ☐ Sketch the elements on the screen (see PSD-template).
- ☐ Refine your sketch.

Central Questions:

- How should your app look?
- Does the look match the idea?
- Does it fit the target audience?

Elements of good design:

Good design ...

- makes your product comprehensible.
- is honest.
- is discreet.
- is as little design as possible.
- is aesthtical design.

Hints:

- Merge the „good“. Work with copy-paste.
- Search for examples everywhere (!)
- Trust your gut feeling and make quick decisions.
- Getting the basic design right is more important than perfecting it.
