

Telefónica

O₂

Station 04: The Technology

think
big

is a Telefónica Foundation Programm

Station 04:

The Technology

Goals:

- Incorporate the know-how of the programmers.
- Get insight into the different aspects of programming.
- Get a first code setup by one of the programmers (either general or specifically tailored to your idea).

Steps:

- ☐ Search for apps that already do the stuff you want to do.
- ☐ Download the competitors apps and try them.
- ☐ Check what you can do better.
- ☐ Write it down.
- ☐ Give it to your programmers.
- ☐ Pray.

Hints:

- Respect the paradigms of your platform.
- Don't repeat yourself.
- Eat your own dog food!
- Fail early, fail often.
- Release early, release often.
